Right, maybe just meet at the field office?

Fine with me. Probably no need to physically go on site this visit ... that will save some time?

Okay, I understand.

How about 2-4?

Jeryl,

I can't run that late because I need to be at the meeting venue by 530 to help set up and greet

the folks who seem to always arrive a half hour early.

I need to end the OU4 discussion by 4 to realistically meet my CI team around 430 for dinner.

I thought we had scheduled from 1-3:30 for OU-4a discussions in Yerington.

If possible it would be better for me if we were able to move that to a bit later, say 2:30-5, allowing us still an hour for dinner before the public meeting.

What do you think?

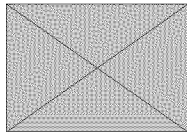

Thanks,

Jeryl

I know we haven't formally scheduled anything but let's try and discuss the afternoon of Aug 6? Perhaps at Yerington field office? Would be helpful to have maps of sample location available as well as data tables.

Subject: Draft data from OU-4a assessment

Dave and Jeryl,

Attached are the groundwater and geotech data summaries for OU4a Phase 1a field activities. These results are draft and un-validated at this point but are being provided for discussion purposes. Please let me know how you would like to proceed with these discussions.

Thanks,

-jack
